

EXTRA LARGE RAPID FOLD DOORS

IMPORTANT POINTS TO KNOW WITH ULTI-FOLD RAPID DOORS

- ✓ **Strength**- the design of the Ulfi-fold doors gives them superior strength-ensuring they will withstand very high winds – up to 110km/h – and harsh storms of other severe environmental conditions without damage.
- ✓ **Rapid Acting** – with opening speeds up to 1.2 m/s.
- ✓ **Assurance** – Simple manual release using a counterweighted release handle in event of power failure or similar.
- ✓ **External Grade** – Pre Painted Galvanized Steel Frame construction designed for external applications, & curtain designed for positive wind pressure areas.
- ✓ **Safety** - Adjustable infrared safety photocells detect traffic & reverse closing door.
- ✓ **Additional Safety** – Reversing sensor in bottom of curtain –assurance if all else fails!

So.....you want it to last.....?
